MONTEPELIER, OCT. 3, 1863.

Vermont Bible Society.

The Anniversary of the Vermont Bible Society will be held in Montpelier, on Wednesday, the 14th of October.

The Directors will meet at the Rooms of the Society, at 10 o'clock A. M.

The Society will meet in the same place, at 2 P. M.

In the evening the Rev. Henry Wilkes D. D. of Montreal will preach the Annual Sermon, in the Brick Church.

W. H. LOMB, Sec'y. V. B. S.
Montpelier, Sept. 28th, 1863.

To Mr. Hux.—John Burns, convicted of murder at Burlington the other day, was sentenced to be hung on December 17th, 1864, between 12 A. M. and 4 P. M., and meanwhile to be confined at hard labor in the State Prison.

D. B. Dudley, of Royalton, has been appointed to a Clerkship in the War Department. He is one of the editors of the Windsor Journal, and last Fall was an Assistant Clerk of the House.

LONG DRAWN OUT.—Mr. A. A. SWEET of this village, has in his garden the product of a single Hubbard squash seed, 705 1-2 feet, or thereabouts, of vines.

The Headquarters for recruiting officers for the Invalid Corps have been, by order of Gen. Pitcher, removed from Montpelier to Windsor.

ONE HUNDRED FOLD.—A. J. Dutton of Hardwick, has raised this year, from 32 small white beans brought from Virginia, 3,479 beans. The seed was brought from the vicinity of Camp Griffin, Virginia, ground familiar enough to the old Vermont Brigade.

The murder trial, which was commenced in our Court last Wednesday morning is still slowly progressing. Five witnesses have been examined for the State, and the sixth is now on the stand. It will doubtless occupy the court the whole of this week.

INVALID CORPS.—The Invalid Corps which is being organized at Brattleboro comprises four companies. One company numbers 100 men and has been on duty at Rutland. The first company in the Second Battalion is full and will remain at Brattleboro. The officers are Capt. J. T. Drew, 1st Lieut. L. C. Bancroft, 2d Lieut. George W. Debevoise.

The attempt to get up a contribution for Gen. McClellan in the army, has been abandoned and the money paid has been refunded. Somebody had the wit to see that this forced loan for an individual who was drawing nearly \$500 a month from the United States Treasury, was not calculated to render favorably fragrant the reputation of the friend of Fitz John Porter.

NEW VIEW OF THE DRAFT.—Many think the draft a "bad egg," but when we consider that lots of young men, who never did anything in their life but loaf around corner groceries and "keep bread from moulding," have through it become "the only support of aged and infirm parents," we are constrained to take another view of the subject.—Hornellsville Tribune.

BY TELEGRAPH TO THE FREEMAN.

4 O'CLOCK, P. M.

NEW YORK, Oct. 5. The steamship City of London from Liverpool the 23d via Queenstown the 24th arrived this morning. The withdrawal of Mason is confirmed.

The Times says, "if the Confederates are offended at England for trying to keep in the right, it is sorry for them, but the loss is theirs, while the relief to the British government will be great, and the nation will have nothing to repent of."

A crowded meeting at Leeds adopted resolutions rejecting that the way was shaping itself into one for the destruction of Slavery, denouncing the building of war ships for the Confederacy, and applauding the Government for detaining those built.

The Times' city article warns the Government against going so far in stopping the ship-building for belligerents while munitions of war are freely supplied. It says "the course bears too much resemblance to the views of Federal politicians."

QUEENSTOWN, Sept. 24. Steamship Great Eastern has been withdrawn from American trips for the present.

The American ships Express and Anna F. Schurdt were destroyed by the pirate Alabama off Rio Janeiro. No date given.

The political news to day is unimportant.

NEW YORK, Oct. 5. The Tribune says gentlemen who are accustomed to watch the current of European politics and are in receipt of private correspondence from well informed sources abroad, predict that a great and general war, growing out of the Polish question will convulse Europe by next spring. It is believed at St. Petersburg that Russia will then have one million of men under arms, and will be prepared for any emergency. It is conjectured here that the true explanation of the appearance of the Russian vessels of war in our waters is to secure them from being blockaded in home ports, as was the case in the Crimean war.

NEW YORK, Oct. 5. The Times' Washington dispatch says Gen. Lee is entrenching his position by throwing up works at every one of the fords over the Rapidan, at Racon, Summerville, and Robinson fords. Rifle-pits command the approaches. "All quiet along the lines" is still the report from the front.

The soldiers have been both gladdened and plundered by the arrival of a long train of cars loaded with sutler's stores.

The arrangements for forwarding troops from Washington to the Department of the Cumberland have been brought to such perfection that soldiers who left here on Friday were on last Tuesday in a position to render effective assistance to Gen. Rosecrans, who has, by this time, received heavy reinforcements.

The steamship Glasgow from Liverpool, arrived last night. The Glasgow and City of London bring over 1100 passengers.

The gunboat Kearney arrived at Havana on the 29th from Key West. She reports the gunboat Tioga took into Key West the 28th. Rebel steamer Herald with 250 bales of cotton and agents of a new rebel company with a capital of two millions for blockade running, were on board. The Herald was the first vessel of the new company.

Late advices from St. Domingo, via Turks Island, bring interesting particulars of late battles fought there, where the people who have risen against their Spanish masters, have defeated them with great slaughter.

The political news to-day by the City of London, from Liverpool, is unimportant.

The Confederate loan relapsed to 30 a 28, discount under the Jura's news.

Russia continues warlike preparations.

The Herald's Washington dispatch says that according to the best rebel authority Bragg's original force amounts to 60,000 men.

His reinforcements consisted of three divisions from Joe Johnston's command from Mississippi, and Alabama, the latter having been withdrawn from Mobile, one division from Charleston under Joe Jenkins, and Buckner's division of East Tennessee, and Longstreet reinforced Bragg with two of his divisions from Lee's army Hood's and McLaw's.

Gov. Brown of Georgia strengthened Bragg with 12 state regiments, and assembled at Rome, a convenient distance from Kingston, Ga., 15,000 state militia.

SCIENTIFIC AMERICAN

The Best Mechanical Paper in the World.

EIGHTEENTH YEAR.

VOLUME VIII.—NEW SERIES.

A NEW volume of this popular Journal commences on the first of January. It is published Weekly, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER.

No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

THE SCIENTIFIC AMERICAN is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country.

We also receive, every week, the best scientific Journals of Great Britain, France and Germany; thus placing our readers in possession of all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these Journals of whatever we may deem of interest to our readers.

A complete set of instructions as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. MUNN & Co. have acted as Patent Solicitors for more than SEVENTEEN years, in connection with the publication of the SCIENTIFIC AMERICAN, and they refer to 20,000 patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

CHEMISTS, ARCHITECTS, MILLWRIGHTS and FARMERS.

The SCIENTIFIC AMERICAN will find a most useful Journal to them. All the new discoveries in the science of chemistry are given to its columns, and the interests of the architect and carpenter are not overlooked. All the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of Millwrights and mill owners will be found in the SCIENTIFIC AMERICAN, which information they can not possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the SCIENTIFIC AMERICAN; most of the improvements in agricultural implements being illustrated in its columns.
